

VICTOR CAMILO AVENDAÑO FORERO

AI-Fluent Virtual Administrative Assistant | Executive Support | Process Optimization & CRM Workflows
Bogotá, Colombia | melethestel@gmail.com | +57 305 721 8436 | linkedin.com/in/vavendanof

NON-PROFIT LEADERSHIP

Asociación Jagger Colombia
Founder & General Manager
2020 – 2023 | Bogotá, Colombia

- Founded and scaled the organization end-to-end — operational oversight, HR coordination, multi-stakeholder partnerships.
- Secured district-level pilot funding and managed public-private partnerships across municipal schools.

Asociación Speculum Alae
Founder & General Manager
2011 – 2017 | Bogotá, Colombia

- Directed HR, financial administration, and grant acquisition in partnership with IDRD and local mayoralities.
- Orchestrated end-to-end project development from tender submissions to execution and impact assessment.

- > Self-Management Across Concurrent Priorities

AI TOOLKIT

- > ChatGPT
- > Claude
- > Microsoft Copilot
- > Ollama (Local LLM Deployment)
- > Qwen
- > DeepSeek
- > Prompt Engineering
- > Generative AI Workflows

PROFESSIONAL SUMMARY

AI-fluent administrative and operations professional with 10+ years supporting executives, account leaders, and multi-stakeholder programs across fintech, public sector, and social-impact environments. Proven execution partner: manages high-volume inboxes, calendars, CRMs, and reporting workflows with strict SLA discipline (24-hour response standards, 100% spec adherence). Native Spanish, C2 English. Hands-on user of ChatGPT, Claude, and Microsoft Copilot to accelerate research, drafting, scheduling, and repeatable process design. Builds systems instead of completing isolated tasks — turns ad-hoc client requests into documented, reusable workflows that scale across accounts.

KEY VALUE

- Executes high-volume administrative workflows under strict SLAs (proven at US\$10B+ fintech scale and Stripe global support).
- AI-First mindset: daily operator of ChatGPT, Claude, Microsoft Copilot, and local LLMs (Ollama, Qwen, DeepSeek) for drafting, research synthesis, and workflow automation.
- Google Workspace, Salesforce CRM, Microsoft Planner, SharePoint — fluent across the toolchain Account Managers rely on.
- Systems thinker: builds repeatable processes rather than one-off fixes; documents and hands off cleanly.
- C2 English (EF SET 88/100) — comfortable structuring written and verbal communication with C-suite, business owners, and cross-functional stakeholders.
- Track record of self-managing multiple concurrent priorities in fast-paced, multi-client / multi-stakeholder environments.

PROFESSIONAL EXPERIENCE

ARQ (formerly DolarApp)

July 2024 – April 2026

FinCrime Analyst — High-Volume Case Operations

Bogotá, Colombia (Remote)

- Manage high-volume case queues across a 2M+ user platform under strict SLA targets, mirroring the throughput discipline required to support multiple client accounts simultaneously.
- Triage and prioritize incoming work using risk-based frameworks — directly transferable to inbox triage, calendar conflicts, and competing client requests.
- Build structured digital workflows (case templates, escalation paths, documentation standards) that reduce processing time and become reusable team assets.
- Coordinate with risk, product, and compliance stakeholders across time zones; deliver concise written updates and structured handoffs.
- Apply AI tooling (ChatGPT, Claude) for first-pass drafting, research synthesis, and pattern detection within daily caseload.

Stripe

May 2023 – July 2024

Customer Support Specialist — Global English Operations

Bogotá, Colombia (Remote)

- Owned end-to-end customer cases in Salesforce CRM under strict SLA targets, maintaining top-tier CSAT across concurrent high-priority workflows.
- Delivered all support exclusively in C2 English to a global client base, including business owners and finance leads — structured, professional written and verbal communication every interaction.
- Coordinated cross-functionally with compliance, risk, and product to resolve escalated cases and route complex requests cleanly.
- Refined case-handling workflows through structured tracking and feedback loops, improving consistency across the team — a direct analog to building repeatable client processes.
- Operated entirely on cloud collaboration stack (Google Workspace, Salesforce, internal knowledge bases) in a fully remote, fast-paced environment.

Ecoproyectos Aire S.A.S
Operations & Project Manager

2018 – April 2023

Bogotá, Colombia

- Provide direct execution support to leadership: calendar coordination, stakeholder scheduling, travel and event logistics, meeting prep, and follow-up tracking across public-sector and private-sector partners.
- Own end-to-end project lifecycles — planning, budget tracking, KPI reporting, vendor coordination — and deliver executive-level briefings to senior leadership.
- Integrated AI-driven automation (Ollama, Qwen, DeepSeek, ChatGPT, Claude) into administrative pipelines to accelerate report generation, draft communications, and synthesize research into client-ready outputs.
- Built cloud-based digital infrastructure (Google Workspace, SharePoint, shared trackers) to standardize stakeholder communication, document control, and data transparency.
- Negotiated and managed strategic alliances with municipal institutions and private partners — comfortable communicating across all organizational levels.

Ecoproyectos Aire S.A.S
Junior Project Manager

2015 – 2018

Bogotá, Colombia

- Coordinated full project lifecycles — calendars, deliverables, budgets, compliance reporting — across technical and operational constraints.
- Built structured tracking systems for deliverables, timelines, and resources, achieving 100% adherence to specifications and financial limits.
- Produced detailed stakeholder reports translating operational data into actionable, executive-ready insights.

UAERMV (Bogotá District Government)
Document Management & Compliance Historian

Feb 2018 – Jan 2023

Bogotá, Colombia

- Designed and implemented Document Retention frameworks (TRD/TVD) aligned to governmental standards — translates directly to building organized, auditable client filing and records systems.
- Standardized record-keeping methodologies across departments, cutting retrieval times and strengthening institutional data governance.
- Conducted secondary appraisal of documentary series, optimizing information flow and long-term compliance readiness.

Universidad Distrital Francisco José de Caldas
Research Assistant — Biomass Energy Legal Framework

Sep 2015 – Aug 2016

Bogotá, Colombia

- Curated research databases for partnerships with Colombia's Ministry of Environment and UPME — synthesized complex regulatory material into usable reference outputs.
